II. Wayne County School District iPad 1:1 Initiative:

Wayne School District will be implementing a phased program for delivering mobile learning devices (iPad) to our secondary schools. This program, depending on funding, will start initially with the following grades: 7th, 8th, 9th, and 10th. It is the intention of the schools to “phase-in” all grades 7-12 by school year 2014-15.

This one-to-one learning program is designed to provide an “anywhere, anytime” access to engage and empower students learning potential. Excellence in education becomes dependent on integrating technology seamlessly within or without the traditional walls of education. With effective teaching and learning being transformed to “student-centered” learning, the use of the iPad, along with parents/teachers involvement, will help prepare students for the demands of college, society, and the workplace.
