Fifth Grade

Mrs. Barlow's Fifth Grade class has been working really hard throughout the year. We have been learning about chemical and physical reactions, volcanoes and earthquakes, plant and animal life biomes, and all about the water on the earth. We love science! We were able to have Discovery Gateway come and present some neat experiments to us and also let us do a couple of exciting ones. We were able to see what happens when you mix an acid and a base to red cabbage juice.

We have been working hard on our state report projects. We will be having our Parade of the States in the gym on Friday March 31st. The students have created a string art of their state, designed a t-shirt, a trifold display board, a keynote, and a float to present their state to their parents and the school. The hard work has sure paid off!

We will be traveling to the State Capitol and Hogle Zoo in May for our field trip. We are looking forward to that experience. We also have the opportunity to travel with the fourth grade to Ephraim on their field trip to learn some more about Utah history.

We are looking forward to some warmer weather and getting ready for our end-of-level testing. We sure have had a great year so far! ~Mrs. Barlow~

Principal's Message

"Never let the fear of striking out get in your way." -Babe Ruth

As we work through the 4th quarter, let's aim for the fences! Work hard, be kind and give it your all!
