## Preschool

Preschool is just wrapping up our unit on "How Structures are Built." Students have been spending time listening to procedural texts and focusing on sequencing. When this unit was first introduced, students created their own bridges using different types of materials. They had to determine which materials work best for building bridges and which don't work well. We have also been working on making toys for our dramatic play "Toy Store." Students have made Fidget Toys, Balls and Scoops, and Twirly-gigs to place in the "Toy Store." This week is the last week of the unit and students are making toys to take to the students in the Kindergarten classes. Along with building and focusing on sequencing and how structures are built, students have been learning about rhyming words. We have been working hard and having fun in Preschool! ~Miss Megan~

## Principal's Message

"As we pass the 100th day of school, it is good to remember our focus here at Loa Elementary School.

*Goal 1:* (High -Quality Educational Team) We will implement our plan and have 90% of our teaching staff with an aligned goal implemented with fidelity.

*Goal 2:* (Academic Achievement) We will improve proficient scores on the RISE and Acadience assessments by 3%.

*Goal 3:* (Intentional Culture) We will implement a tier 1 Positive Behavior System and score 70% on a tiered fidelity inventory by year end. This refers to our FALCON PRIDE (Patience-Respect-Integrity-Determined-Excellence).

Our future is bright! Our students are mindful and work everyday to achieve their goals. Our staff is supportive and student focused. Our parents, families and community members are helpful and loyal. We make a great team!
