## First Grade

Happy New Year everyone! First grade is super excited to start the New Year off with celebrating the 100th day of school this month. It will be a day full of fun with the number 100! In math, we will learn different ways we can count to 100 and learn to add and subtract with 100. In science, we are going to be exploring many ways we use 100 to build things. We will also use the number 100 with art activities and will be reading stories about the 100th day. The students will be learning about different kinds of animals and their habitats this month. We are excited to explore these animals and learn what we can about them.

## Principal's Message

"Believe you can and you are half way there." As we begin 2023 here at LES, we look ahead to participating in engaging lessons, setting high academic goals, and achieving social and emotional wellness. We wish a prosperous New Year to all of our school community members!
