The annual fee for the student iPad is \$10 and must be received by the office BEFORE an iPad will be issued.

Clarification

IPads are the PROPERTY OF WAYNE SCHOOL DISTRICT and can be confiscated by school faculty at any time for ANY reason.

Inappropriate Use

Administration and faculty maintain the right to determine, and adjust, what does and what does not constitute inappropriate use of iPads at Wayne High School. These expectations of inappropriate use will be communicated clearly to the students of Wayne High School. In addition, each teacher will communicate clearly to his or her students what constitutes inappropriate use in his or her classroom.

Consequences of Inappropriate Use

1. First offense-- Warning will be given, all non-educational or inappropriate apps and content will be deleted along with accompanying data.
2. Second offense--All non-educational or inappropriate apps and content will be deleted along with accompanying data. The student will need to pick up their ipad in the office before school starts and drop off in the office after school is out. This procedure will last to the end of the quarter.
3. Third offense--All non-educational or inappropriate apps and content will be deleted along with accompanying data. The student will need to pick up their ipad in the office before school starts and drop off in the office after school is out. This procedure will last to the end of the year.

4. Remember the above clarification that faculty/staff can confiscate ipads (school property) at ANY time for ANY reason.

Unattended iPads

As per the security section of the Wayne District Policy, students are required to never leave their iPads “unattended or unsecure”. Unattended/Unsecure iPads will be confiscated, turned in the office, and a \$5 fee will be assessed to the student’s account.
